

Stock lists

Every week, a stock list is sent out with the current stock level of the following product groups

- Rules and regulations
- Timber rafters
- Hvl. Formwork
- Cast formwork
- Roof battens
- Separating room sledges
- Clamping strips

The list is only indicative, as items are constantly being sold from the warehouse and new items are being produced for the warehouse. If the item you want is not on the list, please ask us for delivery time.

The list also includes current offers on stock items and general information from the sawmill. If you want to get on/off the mailing list, please contact us. We will of course need your email address.
